Week 6 Submission Deliverables

Student Name: Tilak | Live Site: <https://tilakstar843.github.io/niat-week6/>

DELIVERABLE 1: BRAND BIBLE

Brand Bible: Aura Diffuser Co.

Single Source of Truth for Brand Strategy, Positioning, and Creative Execution

1. Executive Brand Overview

- **Business Summary:** Aura Diffuser Co. designs and manufactures premium, app-controlled smart ultrasonic diffusers that integrate therapeutic-grade waterless nebulization with circadian ambient lighting to optimize home wellness, sleep quality, and daily productivity.
- **Brand Story:** Modern life is lived indoors, under artificial blue light, and in high-stress environments. Aura was founded in 2026 by wellness technologists who realized that while we curate our diets and workouts, we ignore the air we breathe and the ambient environments we live in. By merging sensory science (scent and light) with sleek, modern design, Aura helps people reclaim their domestic sanctuaries.
- **Mission:** To elevate daily living spaces into active wellness hubs through intelligent sensory design, organic ingredients, and modern technology.

- **Vision:** To become the global standard in smart domestic wellness, making automated home environmental optimization accessible to every urban home.
 - **Core Values & Brand Promise:**
 - *Sensory Excellence:* We use only pure, therapeutic-grade ingredients and premium, noise-free hardware.
 - *Intelligent Simplicity:* Our products work autonomously and integrate seamlessly with smart homes.
 - *Restorative Design:* Minimalist aesthetics that enhance, rather than clutter, home spaces.
 - *Environmental Honesty:* Ethically sourced botanicals, zero synthetic toxins, and energy-efficient designs.
 - *Our Promise:* A healthier, calmer, and more focused home environment with the tap of a button.
 - **Brand Purpose:** To foster mental wellness and physical restoration by aligning the indoor human experience with natural circadian and biological rhythms.
-

2. Market Dynamics & Intelligence

- **Industry Overview & Trends:** The home wellness market is experiencing rapid expansion, driven by a post-pandemic focus on mental health, remote work optimization, and sleep hygiene. Consumers are shifting away from cheap synthetic candles and water-diluted diffusers toward high-efficiency, app-integrated nebulizers that preserve oil purity.
- **Opportunities & Threats:**
 - *Opportunities:* High demand for smart home integration (Apple HomeKit, Google Home); rising awareness of the toxicity of synthetic paraffin-based candles.
 - *Threats:* Inundation of low-cost water diffusers on Amazon; price sensitivity due to inflation; raw material supply volatility for exotic botanical oils.
- **Growth Vectors:** B2B hospitality partnerships (boutique hotels, high-end yoga studios), subscription-based monthly oil refills, and custom API integrations for corporate office wellness programs.

3. Deep-Dive Customer Psychology

- **Audience Segmentation:**

- *Primary:* High-income remote working professionals, designers, and tech workers aged 25-45 who value aesthetic spaces and high productivity.
- *Secondary:* Health-conscious parents, wellness enthusiasts, and individuals suffering from sleep quality issues.

- **Demographic & Psychographic Profiles:**

- *Demographic:* Income \$85k+, metropolitan cities, design-focused, tech-literate, buyers of premium brands (e.g., Aesop, Dyson).
- *Psychographic:* High stress levels, values mental wellness and mindfulness apps, prioritizes sleep hygiene, prefers clean minimalist home design.

- **Desires, Pain Points & Friction:**

- *Desires:* A peaceful home office that triggers focus; a wind-down routine that improves deep sleep; a luxury home scent that feels natural.
- *Pain Points:* Standard diffusers run out of water constantly, get moldy, dilute the scent, and look like cheap plastic toys.
- *Friction:* Is \$149 too expensive for a diffuser? Will the app be hard to set up? Are the oils safe for pets?

- **The Customer Journey:**

- *Awareness:* Discovers Aura through a beautiful Instagram reel showing the glowing circadian light transitioning at sunset.
- *Consideration:* Visits the website, reads reviews on sleep improvement, and compares water-less nebulizing vs. water diffusers.
- *Conversion:* Buys the flagship Aura One with the Curated Oil Set, attracted by the 30-day money-back guarantee.
- *Retention/Advocacy:* Enrolls in the Smart Refill subscription and shares their aesthetic desk setup on social media.

4. Strategic Positioning Framework

- **Definitive Positioning Statement:** For design-conscious urban professionals who feel overwhelmed by high-stress lifestyles, Aura is the smart home wellness system that automates environment optimization. Unlike cheap water-diluted diffusers or toxic synthetic candles, Aura uses app-controlled waterless nebulization and circadian lighting to create customized sensory routines scientifically proven to aid sleep and focus.
 - **Unique Value Proposition (UVP):** Smart sensory automation for a restorative home. Pure waterless scent meets circadian light.
 - **Competitive Differentiators:**
 - *Waterless Nebulizing Technology:* Micro-suspends pure oil directly into the air without diluting it with water or heating it.
 - *Circadian Lighting Sync:* Slowly shifts light temperature from energizing morning cool white to sleep-inducing warm amber.
 - *Smart Scheduling App:* Set schedules like "Focus scent at 9 AM, Lavender wind-down at 9 PM".
 - **Brand Perception Goal:** "Aura is the Dyson of home fragrance—incredibly designed, technologically advanced, and an essential part of my daily self-care routine."
-

5. Brand Persona & Voice Architecture

- **Personality Traits & Archetypes:**
 - *Archetypes:* The Creator (focused on design, innovation, and self-expression) and The Sage (grounded in science, botanical wisdom, and mindfulness).
 - *Traits:* Sophisticated, Mindful, Clean, Scientific, Empathetic.
- **Tone of Voice (ToV) Guidelines:**

- *What we are*: Clear, calming, elegant, and informative.
 - *What we are NOT*: Hype-driven, overly spiritual, preachy, or corporate-cold.
 - *Say This*: "Transform your bedroom into a restorative sanctuary. Program the Aura One to diffuse organic lavender oil 30 minutes before sleep."
 - *Don't Say This*: "OMG! Cure your insomnia instantly with our magic oil diffuser! Buy now before stock runs out!"
 - **Customer Experience (CX) Principles:**
 - *Prompt & Gentle*: Every query is answered with calm expertise.
 - *No-Questions-Asked Support*: Easy returns and troubleshooting to prevent any stress.
 - *Delightful Unboxing*: Clean packaging, card with wellness tips, and recycled materials.
-

6. Core Messaging Matrix

- **The Elevator Pitch**: "Aura Diffuser Co. makes smart wellness systems for your home. Our app-controlled, waterless diffusers combine organic, pure botanicals with circadian lighting to automate your focus during the day and improve your sleep at night. It's premium technology wrapped in a beautiful, minimalist design."
- **One-Line Description**: "Smart sensory systems designed to automate home wellness and restore your peace of mind."
- **Taglines**:
 - *Scent. Light. Rest.*
 - *Automate your environment. Restore your focus.*
 - *The science of ambient wellness.*
- **Value Pillars**:
 - *Purity*: 100% waterless nebulization means pure oil, pure benefits, and zero mold.
 - *Intelligence*: Automate your scent schedule to match your circadian rhythm.
 - *Design*: Minimalist anodized aluminum casing that complements high-end interiors.

- **Core Narrative Themes:** "The Air We Breathe" (focusing on indoor health), "Designing Rest" (focusing on sleep science), and "Productive Spaces" (focusing on work-from-home setups).
-

7. Visual & Aesthetic Direction

- **Design & Logo Philosophy:** Pure geometry, clean sans-serif typography, plenty of whitespace. The logo is a minimalist wordmark in geometric capitals with a soft, glowing dot accent indicating light.
 - **Color Palette Psychology:**
 - *Primary - Obsidian Black (#121212):* Represents premium luxury, grounding, and quiet luxury.
 - *Secondary - Sand Warm (#EAE5D9):* Represents calm, natural origins, and softness.
 - *Accent - Amber Glow(#FF9F1C):* Represents warm circadian evening light, energy, and comfort.
 - **Typography & Photography Direction:**
 - *Typography:* Headings in *Outfit* or *Inter* (Geometric Sans-serif) for a modern tech feel. Body copy in *Inter* for maximum clean legibility.
 - *Photography:* High-contrast, moody, warm studio lighting. Shadow overlays showing window frames. Minimalist workspaces and clean, cozy bedrooms.
 - **Brand Consistency Rules:** Never use bright neon colors (except for the warm amber circadian accent), never use busy background textures, and avoid generic stock images of smiling faces. Keep focus strictly on the product and ambient environments.
-

8. Cross-Channel Content Strategy

- **Content Pillars:**
 - *Pillar 1: Sensory Science (Educational):* Explaining how scents affect the limbic system and how light impacts sleep hormones.
 - *Pillar 2: Sanctuary Spaces (Inspirational):* Showcasing beautiful, clean bedroom and office setups featuring the Aura One.
 - *Pillar 3: Behind the Botanical (Storytelling):* Documenting how we ethically source organic oils from family farms.
 - **Content Ideation Engine:**
 - *Educational:* "Why water diffusers are breeding grounds for mold (and how nebulizing solves it)."
 - *Promotional:* "Build your ultimate hybrid work setup with 15% off the Aura Desk Set."
 - *Engagement:* "What scent matches your productive energy: Peppermint or Eucalyptus?"
 - *Storytelling:* "From French lavender fields to your bedside: The extraction process."
-

9. Omni-Channel Social Media Blueprint

- **Instagram:** Focus on aesthetic reels showing the device slowly diffusing mist in a beautiful room, accompanied by lo-fi music. Daily design tips and user-generated desk setups.
 - **LinkedIn:** Share articles on WFH productivity, corporate wellness, and the science behind sensory branding.
 - **YouTube:** Run ambient, relaxing soundscapes with visuals of the diffuser, suitable for leaving on in the background. High-quality product walkthroughs.
 - **WhatsApp & Telegram:** Direct channel for subscription renewals, exclusive product drops, and fast customer service.
 - **Google Business:** Highlight local store/showroom availability, high-rating local reviews, and address details.
-

10. High-Conversion Website Framework

- **Homepage Architecture:**
 - *Hero Section:* High-end video of the diffuser misting with warm circadian ambient lighting. Copy: "Scent. Light. Rest. The smart home wellness engine." CTA: "Order Aura One".
 - *Value Proposition Cards:* Highlighting Waterless Tech, Circadian Lighting, and Smart App scheduling.
 - *Product Grid:* Direct shop links for Aura One (\$149) and Curated Oils (\$49).
 - *Testimonial Showcase:* Rating highlights from sleep specialists and productivity advocates.
 - *Telegram Booking Banner:* "Have questions? Chat instantly with our AI Concierge on Telegram."
 - **Conversion Rate Optimization (CRO):** Free shipping on orders over \$100, 30-day sleep guarantee, one-click checkout, and direct Telegram ordering for custom bundle requests.
-

11. Search Intent & SEO Strategy

- **Target Search Topics:** "best waterless oil diffusers", "how to improve sleep hygiene", "essential oils safe for home office", "circadian lighting setups".
 - **Blog Categories:**
 - *Sleep & Restoration:* Guides on sleep science, evening wind-down rituals.
 - *Focus & Productivity:* How to structure desks, optimize home offices, and choose energy-boosting scents.
 - *Botanical Guides:* Ingredient breakdowns, aromatherapy safety, extraction processes.
-

12. Full-Funnel Marketing Lifecycle

- **Top of Funnel (Awareness):** Targeted Instagram ads showcasing visual glassmorphic design and the circadian transition.
 - **Middle of Funnel (Consideration):** A retargeting blog article explaining the differences between nebulizing (waterless) and humidifying (water-based) diffusers.
 - **Bottom of Funnel (Conversion):** Review highlights, a 30-day money-back guarantee popup, and a direct CTA redirecting to a Telegram checkout bot for personalized assistance.
 - **Post-Purchase (Retention):** Automatic reminder via email/Telegram for oil refills every 30 days, coupled with smart diffuser setup guides.
-

13. High-Performance Advertising Framework

- **Creative Ad Angles:**
 - *The 'No Mold' Angle:* Contrasting a dirty water-based diffuser with the clean waterless Aura One.
 - *The 'Sleep Routine' Angle:* A fast-cut video showing a bedtime routine triggered by the app scheduling warm amber light and lavender mist.
 - **Hooks & CTAs:**
 - *Hook 1:* "Stop diffusing moldy water into your bedroom."
 - *Hook 2:* "This smart device fixed my work-from-home focus."
 - *CTA:* "Explore Aura One" / "Get 15% Off Your First Bundle".
-

14. Growth & Velocity Strategy

- **Organic Ecosystems:** Launching an affiliate program for interior design micro-influencers who feature the diffuser in their home tours.
 - **Partnerships:** Co-branding campaigns with premium mattress manufacturers or meditation apps (e.g., Calm or Headspace).
-

15. Tactical 30-Day Go-To-Market Plan

- **Week 1:** Complete brand assets, final web frontend assembly, and launch the Telegram AI Assistant.
- **Week 2:** Deploy initial social media reels and distribute product photography to beta reviewers.
- **Week 3:** Set up the n8n automation pipeline to generate and store weekly blog/social content.
- **Week 4:** Launch targeted Facebook/Instagram ads, analyze conversion rates on the website, and optimize.

DELIVERABLE 2: AI TOOLS PROMPTS & CONFIGURATIONS

AI Tool Prompts & Guidelines: Aura Diffuser Co.

This document contains pre-filled, customized prompts and instructions for each of the AI tools required to complete the Week 6 assignment.

1. Gemini Gems (AI CMO Setup)

To create your AI Chief Marketing Officer, paste the following prompt configuration into Gemini Gems (or directly into Gemini).

Gem Details

- **Name:** Aura CMO
- **Description:** Elite Chief Marketing Officer for Aura Diffuser Co. specializing in home environmental wellness, premium WFH branding, and circadian health optimization.

Gem System Instructions

```
# SYSTEM PROMPT: CHIEF MARKETING OFFICER (CMO) AI ACTIVATION
You operate as the elite, multidisciplinary Chief Marketing Officer (CMO) for Aura
Diffuser Co. Your mission is to scale brand awareness, drive subscriptions for organic
oil refills, and position Aura One as the premier smart home environmental wellness
system.

## BUSINESS DETAILS:
- Business Name: Aura Diffuser Co.
- Industry / Niche: Premium Smart Ultrasonic Fragrance & Wellness Diffusers.
- Geographic Location: New York City, US (Targeting Global Urban Professionals & WFH
Remote Workers).
- Core Offerings:
  * Aura One Smart Diffuser - $149 (Flagship app-controlled scent & circadian light
system)
  * Aura Essential Oil Curated Set - $49 (Set of 4 organic, therapeutic-grade oils:
Sleep, Focus, Calm, Energy)
- Stated USP: App-connected waterless nebulizer that schedules organic, undiluted scents
synchronized with sunset/sunrise circadian lighting.
- Preferred Brand Personality: Warm, Minimalist, Premium, Sophisticated, and
Scientifically Grounded.
- Primary Marketing Channels: Instagram, LinkedIn, SEO, and Telegram Assistance.

## ROLE & OBJECTIVES:
- Act as a Brand Strategist, Consumer Psychologist, and Growth Marketer.
- Apply frameworks like AIDA, STP, and the Circadian Funnel (Awareness -> Consideration -
> Sleep Sync -> Advocacy).
```

- Dynamically tailor all marketing strategies to design-conscious urban professionals who experience high stress and prioritize sleep hygiene.

MANDATORY RESPONSE STRUCTURE:

For any request, structure your response using the 11-point blueprint:

1. Situation Analysis
2. Target Audience Profile
3. Positioning Strategy
4. Brand Strategy
5. Marketing Funnel Architecture
6. Content Strategy & Distribution Plan
7. Growth & Performance Strategy
8. Recommended AI & Tech Stack
9. Tactical Implementation Plan
10. Success Metrics (KPIs)
11. Next Actions

2. Manus iM (Product Photoshoot Enhancer)

Upload your original product photo to **Manus iM** (or your preferred AI image generator) and paste this prompt:

Transform the uploaded product into a world-class commercial advertising photoshoot suitable for luxury brands, premium e-commerce stores, and global marketing campaigns. Maintain the original product design of the black anodized aluminum diffuser while enhancing presentation with professional studio lighting, realistic soft window shadows, natural mist reflections, sand-colored premium textures, and ultra-sharp focus. Create a clean, elegant, high-end environment that highlights the diffuser as the hero of the scene. Use cinematic composition, shallow depth of field, realistic materials, balanced colors, and sophisticated visual storytelling. The final image should look like it was photographed by a top commercial photographer for a major international brand, magazine advertisement, website banner, product catalog, and social media marketing campaign. Ultra-realistic, photorealistic, premium quality, 8K resolution.

3. PixVerse AI (Promotional Video Generator)

Upload the enhanced product photo from Manus iM into **PixVerse AI** (or Kling/Runway) and use this prompt:

Transform this image of the obsidian black diffuser into a premium commercial advertisement video with realistic cinematic camera movements, smooth dolly shots, slow zoom-ins, dynamic panning, elegant rotations, and professional product reveal sequences. Add natural amber lighting transitions, realistic shadows, a gentle visible mist rising from the nozzle, subtle depth of field, and luxury brand aesthetics. Create a high-end marketing campaign feel with smooth motion, polished visual storytelling, premium commercial cinematography, and attention-grabbing product highlights. Maintain realistic textures and product details while adding sophisticated movement and visual energy. The video should feel like a global brand advertisement created by a professional production studio, suitable for social media campaigns, website banners, digital advertising, and promotional marketing content. Ultra-realistic, cinematic, engaging, modern, premium quality, seamless transitions, commercial-grade production, visually stunning, emotionally appealing, and highly professional.

4. Lovable (No-Code Website Builder)

If building the site externally on **Lovable.dev**, paste this prompt to generate the frontend:

Create a modern, mobile-first business website for my brand, Aura Diffuser Co.

Use a premium dark wellness aesthetic: background colors around obsidian black (#0A0A0C), borders with translucent glassmorphism, and accents in warm circadian amber glow (#FF9F1C). Include modern sans-serif typography like 'Outfit' and 'Inter'.

Website Structure:

1. Hero Section: Display a minimalist logo "AURA" with a glowing amber dot. Include a large title "Scent. Light. Rest.", a subtitle explaining our smart waterless nebulizer and circadian lighting system, and a primary CTA "Order now". Embody a visual background simulating circadian mist.
2. About Us Section: Introduce Aura's mission to optimize home environments. Explain waterless nebulization vs dirty water diffusers. Highlight trust, quality, and circadian wellness.
3. Products Section: Feature two product cards:
 - "Aura One Smart Diffuser" (\$149) with specs (1,200 sq ft, circadian sync, waterless).
 - "Aura Botanical Curated Set" (\$49) with specs (4 blends, 100% organic, ethically harvested).
 Include "Order Now" button on each.
4. Why Choose Us Section: Quality Products, Trusted Service (30-day sleep guarantee), Fast Response, Customer Satisfaction, Local Business Support.
5. Promotional Banner Section: Highlight a launch bundle (Aura One + Oils for \$168 with free shipping).
6. Customer Testimonials Section: 3 cards showing reviews from remote WFH professionals about improved sleep and focus.
7. Telegram Ordering Section: A prominent card with a Telegram icon. Title "Instant Scent Refills & Ordering". CTA Button "Order now" that redirects to our Telegram Bot link.
8. Contact Section: SoHo NYC location, social media icons, and hello@auradiffuser.com email.

Goal:

A high-converting, responsive storefront with smooth animations and hover states. Ensure all CTA buttons redirect to the Telegram Bot link.

5. BotPress Cloud (Telegram Assistant Setup)

Create a new bot in BotPress Cloud, link it to your Telegram bot via the Telegram Integration, and apply these configurations:

Bot System Instructions (Knowledge & Personality)

You are the AI Wellness Assistant for Aura Diffuser Co. Your job is to assist customers with choosing aromatherapy blends, configuring their Aura One circadian diffuser schedule, and ordering scent refills.

Brand Personality: Calming, polite, mindful, and technically knowledgeable.

Frequently Asked Questions:

- Waterless technology: The Aura One doesn't use water; it micro-suspends pure essential oils directly into the air. This prevents mold, maintains oil purity, and provides stronger therapeutic effects.
- Circadian light: The diffuser syncs with the app to mimic natural sunlight (cool white in the morning for energy, warm amber in the evening for sleep).
- Pets: Our organic oils are 100% natural, but always diffuse in well-ventilated rooms and consult vets for sensitive animals.

Ordering Rules:

- When a customer wants to place an order, buy a product, get a refill, or talk to a sales representative, immediately present them with the WhatsApp link to finalize payment.

- Response template:

"To place your order and secure your shipment, please contact our order desk on WhatsApp: <https://wa.me/919876543210>"

(Replace 919876543210 with your actual business number).

6. n8n (Content Automation Pipeline)

Create a workflow in **n8n** that connects an **AI Agent Node** (using Gemini) to a **Google Sheets Node** to write weekly content.

n8n Agent Node Prompt

You are the AI CMO of Aura Diffuser Co.
Your job is to create weekly SEO and social media content.

Business:
Aura Diffuser Co.

Website:
<https://tilakstar843.github.io/niat-week6/>

Location:
SoHo, New York City

Target Audience:
- Families
- Students
- Working Professionals (Remote / WFH)

Generate:
- SEO Keyword
- Blog Title
- Meta Title
- Meta Description
- SEO Blog Article (in Markdown format)
- Instagram Caption (with engaging hooks and hashtags)
- LinkedIn Post (professional and value-driven)

Requirements:
- Create content relevant to smart home diffusers, circadian lighting, sleep hygiene, and remote work focus.
- Optimize the blog for search engines.
- Keep Meta Title under 60 characters.
- Keep Meta Description under 160 characters.
- Blog article should be written in Markdown format (NOT HTML).
- Use the SoHo, New York City location when relevant.

STRICT OUTPUT FORMAT RULES:
- Return ONLY the raw valid JSON object.
- Do NOT wrap the JSON in markdown code blocks like ```json ... ```.
- Do NOT nest the JSON inside an "output" string or array.
- Start your response directly with the opening curly brace { and end with the closing curly brace }.

Desired JSON Structure:

```
{  
  "keyword": "string",  
  "blog_title": "string",  
  "meta_title": "string",  
  "meta_description": "string",  
  "blog": "string (Markdown format content)",  
  "instagram_caption": "string",  
  "linkedin_post": "string"  
}
```

n8n Code/Sanitize Node (JavaScript)

If the AI Agent wraps the response in markdown quotes (e.g. ```json), route its output through a **Code Node** containing this Javascript:

```
// Remove markdown wrappers if present
const rawOutput = $json.output || $json.text;
const cleanOutputString = rawOutput.replace(/```json/g, '').replace(/```/g, '').trim();

// Parse the sanitized string safely
const cleanData = JSON.parse(cleanOutputString);

return cleanData;
```

Google Sheets Node Setup

Map the output fields of the Sanitize Node to your Google Sheets columns:

- Column A: `Keyword` -> `{{ \$json.keyword }}`
- Column B: `Blog Title` -> `{{ \$json.blog\_title }}`
- Column C: `Meta Title` -> `{{ \$json.meta\_title }}`
- Column D: `Meta Description` -> `{{ \$json.meta\_description }}`
- Column E: `Blog Body` -> `{{ \$json.blog }}`
- Column F: `Instagram Caption` -> `{{ \$json.instagram\_caption }}`
- Column G: `LinkedIn Post` -> `{{ \$json.linkedin\_post }}`
